

GOALOS — THE OPTIMAL BUSINESS MODEL CANVAS

Proof Utility · services-led → software-scaled → capability-licensed

KEY PARTNERS

Independent reviewers
Model / cloud providers
Security and legal specialists
Enterprise channels
Data and tool providers
Strategic / sovereign partners

KEY ACTIVITIES

Proof readiness
Mission formation
AGI Job execution
Evidence and review
Chronicle admission
Protected invocation

KEY RESOURCES

GoalOS runtime
Evidence Dockets
Chronicle + VSG
Private capability reserve
Autonomous Money Machine Ω
MONTREAL.AI distribution

VALUE PROPOSITION

Tell GoalOS the consequential objective. It exposes what must be proven, completes the bounded work, records the full denominator, shows what passed or failed, and keeps only validated capability current.

Faster decisions · lower risk · inspectable evidence · recurring control · protected reusable capability

CUSTOMER RELATIONSHIPS

Autonomous standard lane
Proof Mission delivery
