

GoalOS Autonomous Money Machine Ω

Machine Ω Frontier AI MasterClass

Commercial Offer, Pricing, and Business-Development Architecture

Not money by magic. A proof-governed productive-capacity flywheel.

No hype. Only proof. Only customer value.

Commercial Position

What is sold

A private executive and builder intervention that converts one legitimate business into a proof-governed revenue institution and a concrete downstream mission.

Offer Ladder

Offer	Duration	Illustrative fee	Best use	Primary output
Frontier Executive Briefing	45–60 minutes	US\$10,000–20,000	Qualified organization or cohort	Category framing, candidate opportunity, and next gate
Private Flagship MasterClass	3 hours	US\$30,000–50,000	Qualified organization or cohort	Complete proof-to-revenue canvas and day-one plan
Money Machine Design Lab	Half day	US\$60,000–100,000	Qualified organization or cohort	Reviewer-ready revenue institution and Proof Mission architecture
Revenue Institution Sprint	2 days	US\$125,000–225,000	Qualified organization or cohort	Offers, pipeline, proof delivery, sales assets, automation, and operating cadence
Proof-to-Revenue Run	30 days	US\$250,000–500,000+	Qualified organization or cohort	Paid market test, completed Proof Mission, Evidence Docket, and Mission 2 reuse test
Enterprise Program	6–12 months	From US\$750,000	Qualified organization or cohort	Recurring missions, capability portfolio, governance, and expansion

Flagship Private MasterClass — Recommended Package

Included	Standard
Sponsor preparation	30-minute call plus pre-work 3–5 business days before delivery.
Participants	Up to 18 senior participants.
Live delivery	3-hour facilitated MasterClass and AMM Ω demonstration.
Artifacts	Commercial objective, offer ladder, price/capacity, funnel, approval map, Mission Contract, Proof Debt, jobs, Docket blueprint, skill passport, reinvestment, and 90-day plan.
Recap	Written executive recap and mission-fit recommendation within 24 hours.
Decision call	Optional 30-minute sponsor decision call.

Commercial Terms

- 50% due on signature; 50% due five business days before delivery.
- One reschedule permitted with at least seven business days' notice.

- Travel, data, specialist, and external-review costs are separate unless included in the proposal.
- Payment purchases the work and artifacts—not a positive verdict.
- Client retains final decision authority.
- No public case study, logo, or client identification without written permission.
- GoalOS retains its underlying methodology, schemas, templates, software, and general know-how; client-specific reuse requires explicit rights.

Recommended Conversion Credit

Conversion incentive

Credit 50% of the private MasterClass fee toward a qualifying Revenue Institution Sprint or Proof-to-Revenue Run signed within 30 days.

Ideal Customer Profile

Signal	Strong fit
Decision value	Costly, consequential, board-relevant, or materially risk-bearing.
Sponsor	Named executive with authority and budget access.
Urgency	Decision inside 90 days.
Proof burden	Evidence, privacy, security, compliance, review, or outcome uncertainty.
Reuse	Multiple related decisions, teams, vendors, or portfolio companies.
Access	Relevant data and stakeholders can participate within a defined boundary.
Budget	Willingness to fund premium mission design and evidence-producing work.

Qualification Score

Criterion	Weight
Decision impact	20
Sponsor authority	15
Urgency	15
Proof burden	15
Data and access	10
Reviewer path	10
Reuse potential	10
Budget	5

- Below 50: send reading or public briefing.
- 50–69: discovery or executive briefing.

- 70–79: Design Lab eligible.
- 80+ with sponsor and deadline: Sprint / Proof-to-Revenue Run eligible.
- Repeated demand across teams: enterprise program candidate.

Sales Funnel

Warm introduction → 30-minute qualification → Frontier Briefing → Flagship MasterClass → Design Lab → Revenue Institution Sprint → Proof-to-Revenue Run → Enterprise Program

Every stage must have a named owner, next action, blocker, value, probability, and decision date.

Discovery Questions

1. What decision or outcome must be achieved?
2. Why is it economically important?
3. What happens if the organization is wrong or late?
4. Who owns the decision and budget?
5. What is the purchase trigger and deadline?
6. How is the decision handled today?
7. Which claims or assumptions are unsupported?
8. Who reviews the evidence?
9. What must remain private?
10. Could the accepted method be reused across teams or customers?

Illustrative Unit Economics

Offer	Price	Direct cost	Gross profit	Margin
Frontier Briefing	\$15,000	\$3,000	\$12,000	80%
Private MasterClass	\$40,000	\$14,000	\$26,000	65%
Design Lab	\$80,000	\$32,000	\$48,000	60%
Revenue Institution Sprint	\$175,000	\$78,750	\$96,250	55%
Proof-to-Revenue Run	\$350,000	\$175,000	\$175,000	50%

These are planning assumptions only. Replace them with actual delivery, sales, reviewer, data, and specialist costs after the first three paid engagements.

90-Day Business-Development Targets

- 30 qualified executive conversations
- 10 formal scoping calls
- 5 paid MasterClasses
- 2 paid Design Labs
- 1 paid Proof-to-Revenue Run
- 1 enterprise-program opportunity
- 3 independent reviewers onboarded
- 1 public-safe case note if earned and authorized
- 1 candidate Validated Skill tested on Mission 2

Source Lineage and Claim Boundary

- GoalOS Autonomous Money Machine Ω standalone application and release notes.
- GoalOS: Proof-Carrying Autonomy — canonical proof-to-capability operating system.
- GoalOS Mission OS — commercial proof-to-action product layer.
- GoalOS: The Validated Skill Graph — Chronicle-gated reusable capability.
- AEP-001 — proof, evaluation, propagation, and rollback doctrine.
- AGI ALPHA — organizational substrate and verified-work compounding thesis.

Claim boundary

This program teaches and applies a research architecture, commercial operating method, and product pathway. It does not guarantee revenue, certify a system, replace legal, security, financial, medical, regulatory, or domain review, authorize production deployment, or claim achieved AGI or superintelligence. Forecasts are scenarios. Strong claims require real customers, real tasks, Evidence Dockets, baselines, replay, cost and safety ledgers, external validation, delayed outcomes, and independent review.
