

# GoalOS Autonomous Money Machine $\Omega$ Frontier AI MasterClass

## Operations and Delivery Checklist

### 10–15 business days before

- ☐ Confirm contracting entity, sponsor, decision owner, and budget owner
- ☐ Confirm session format, date, time zone, room, remote platform, and recording policy
- ☐ Send NDA and data-boundary terms where required
- ☐ Send participant pre-work and workbook
- ☐ Request one legitimate offer or commercial objective
- ☐ Collect buyer, trigger, price, target, capacity, proof burden, and deadline
- ☐ Identify privacy, security, legal, regulatory, or domain-review requirements
- ☐ Confirm attendance of commercial authority and delivery operator
- ☐ Assign lead facilitator, mission operator, producer, and reviewers

### 3–5 business days before

- ☐ Review participant objective and remove unsupported assumptions from the opening framing
- ☐ Configure the standalone application with a relevant example
- ☐ Prepare the AetherWorks case and any client-specific example
- ☐ Pre-build the offer ladder and pipeline scenario without presenting it as fact
- ☐ Test the HTML application offline
- ☐ Test the PowerPoint, fonts, embedded media, hyperlinks, and PDF backup
- ☐ Print or distribute workbook and one-page syllabus
- ☐ Freeze the session run of show
- ☐ Confirm who has authority to approve next steps

### Day of delivery

- ☐ Open with the claim boundary: not money by magic; no automatic-profit guarantee
- ☐ Select one objective and one accountable sponsor
- ☐ Complete the commercial objective and buyer trigger
- ☐ Confirm price, target, capacity, and funnel assumptions
- ☐ Define human approval gates
- ☐ Freeze the Mission Contract starter
- ☐ Expose the top material Proof Debt
- ☐ Create the minimum custom proof jobs
- ☐ Define the Evidence Docket and reviewer route
- ☐ Define the Chronicle admission test and candidate Validated Skill
- ☐ Define the Mission 2 comparison and falsification condition

- ☐ End with owner, blocker, next action, and decision date

### **Within 24 hours**

- ☐ Send executive recap
- ☐ Deliver completed participant artifacts
- ☐ Classify the opportunity: stop, discovery, Design Lab, Proof-to-Revenue Run, or Enterprise Pilot
- ☐ Record objections, language failures, and evidence needs
- ☐ Update the pipeline and weighted value
- ☐ Issue proposal only after scope and authority review
- ☐ Schedule the decision call

### **Quality gates**

- ☐ No fabricated demand, testimonials, customers, or case results
- ☐ No hidden pricing, costs, assumptions, or capacity constraints
- ☐ No unsupported claims presented as validated
- ☐ No private customer data in public materials
- ☐ No reviewer conflict left undisclosed
- ☐ No payment or settlement represented as complete without authorization
- ☐ No Validated Skill admitted without scope, evidence, tests, version, and rollback
- ☐ No compounding claim without Mission 2 controls

### **Completion standard**

The engagement is complete when the participant receives a coherent proof-to-revenue operating model, all required artifacts are inspectable, unresolved Proof Debt is visible, the next decision is explicit, and no claim or action has exceeded its evidence or authority boundary.
