

SkillOS Pilot 001 Public Plan

One real workflow, measured safely

Date: 2026-05-28 Live: <https://montrealai.github.io/skillos/> GitHub: <https://github.com/MontrealAI/skillos>

SkillOS proves the mechanism. Pilot 001 proves the market.

Purpose

Pilot 001 asks whether SkillOS can make one practical workflow cheaper, faster, and better while keeping humans in control.

Workflow

Sales follow-up emails from call notes.

Rule

Agent drafts. Human approves. Nothing is sent automatically.

Metrics

- Human baseline time per job
- SkillOS-assisted time per job
- Human edit time
- Accepted draft rate
- Quality before and after
- Unsupported commitments
- Unauthorized actions
- Lessons captured

Publishing Posture

Only safe, aggregated results should be published. Do not publish private call notes, customer names, personal data, or confidential business context.
