

GOALOS SINGULARITY NAVIGATOR Ω + SEIZE GYM, SPECIALIST ASI & MISSION-SOVEREIGN SUCCESSOR Ω

The sovereign mission environment, the proven intelligence institution, and the successor to the successor

MONTREAL.AI · QUEBEC.AI · Vincent Boucher · v6.0.0

$$\mathcal{G}_m = (N, S, O, A, P, \mathbf{r}, \mathbf{c}, \rho, \tau, V, R)$$

$$\alpha_m = U(S) - \max\{U(I), U(B)\} - C - R - D - \hat{\epsilon}_{\text{gym}}$$

$$v_{\text{learn}} + v_{\text{reproof}} > v_{\text{commodity}} + v_{\text{imitation}} + v_{\text{drift}}$$

MISSION PHYSICS
 $ds_m^2 = dx^\top G_m(x) dx$
 $\nabla G_m V_m = G_m^{-1} \nabla V_m$
 $\gamma^* = \arg \min_{\gamma} \int [\frac{1}{2} \dot{\gamma}^\top G_m \dot{\gamma} + \lambda_R R + \lambda_D D_P - \lambda_V V_m] d\tau$
The manifold is the reachable institution space; SEIZE buys the least-burden admissible path.

GAME-THEORETIC CONSTITUTION
Producer ≠ Verifier ≠ Admitter
Access ≠ Authority; Execution ≠ Acceptance ≠ Admission
Proof capital = option premium; protected proof = collateral for authority.
Truth must be easier to preserve than theatre; no claimant is final judge of its authority.

EVIDENCE COMPANION
Aurelia: 4,300 cases · bounded admission · rollback · next successor
GSSB-4: 4 missions · 6,000 cases · 30,000 candidate episodes
Recursive Successor Ω : 4/4 synthetic proof gates passed
Critical false reassurance = 0 · unauthorized action = 0
Synthetic reproducibility is not real-world authority.

Beta is rented. The Spread is underwritten. Alpha is manufactured. Specialist ASI is proven. Authority never exceeds fresh proof.
